

How 28 Years of Caring Makes a Difference

Our Philosophy

Providing *Continuity of Care* is more than a smart business practice. At Dobson Healthcare Services, Inc., *Continuity of Care* is our passion. Our state-of-the-art client care management program reflects our devotion as it is utilized to create a cohesive yet unique experience for each individual. We see it as our responsibility to maintain a seamless relationship and open communication is encouraged from our Care Coordination Team to you, your loved one, and your family. Ultimately, we at Dobson become patient advocates who strive to achieve optimal outcomes and provide the best services available.

We Comfort

At Dobson, our process of providing care is to make sure your mind is put at ease. As a family owned business we pride ourselves in treating all clients like an extension of our own Dobson Family. This dedication to family results in a coordinated effort put forth by a compassionate staff that will be available to meet all the requirements that your loved one may need.

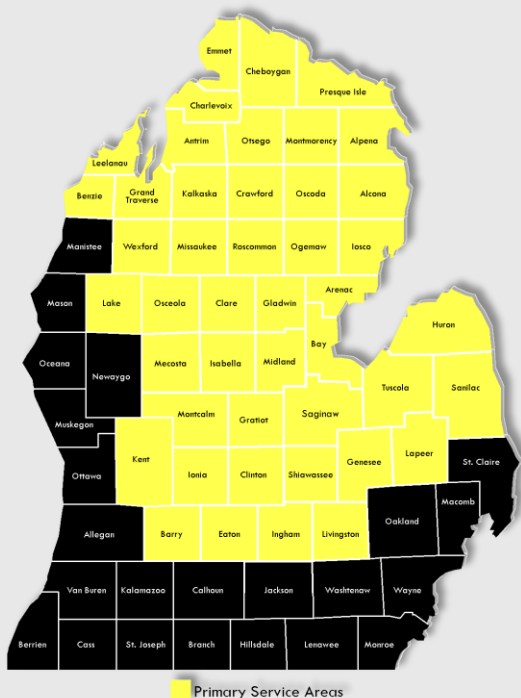

We Encourage

Our promise is to be supportive and understanding while helping your loved one stay home safely and comfortably is our priority. Our Care Coordination Team is made of more than just caregivers, they are cheerleaders for each client. The Nurse Managers frequently communicate with you, your family members, and all involved healthcare providers so we can insure your loved one receives the care they qualify for and deserve.

We Are Caregivers

Along with our Nurse Care Coordinators who manage all client care 24/7, we have consistent, reliable, and experienced caregivers including:

- Certified Brain Injury Specialists
- Certified Nursing Assistants
- Certified Registered Infusion Nurses
- Home Health Aides
- Licensed Practical Nurses
- Registered Nurses
- Pediatric Nurses
- Wound Care Nurses
