

Home Infusion Services

Improving your life at home...

At Dobson, we understand that infusion and injection therapies are very intricate and specialized. We help clients receive their infusion therapy or IV treatment without the need to visit an infusion center.

Families can expect an individualized care plan involving a compassionate team that is focused on providing care within the familiar and comfortable surroundings of their own home, 24 hours a day, 7 days a week.

How We Can Help

The following services are generally offered to those needing Infusion Services:

- Anti-Inflammatory & Steroid Therapies
- Antibiotic & Antiviral Therapies
- Blood Clotting Factor
- Cardiovascular Therapies
- Enteral Feeding & Nutrition Formulas
- Hydration & Electrolyte Replacement
- Immunotherapies
- Pain Management Medications
- Post-Transplant Therapies
- Specialty Infusions
- Total Parenteral Nutrition

Typical Clients & Medical Conditions

We service a variety of clients, from individuals needing assistance with Activities of Daily Living (ADL's) to those suffering from a Traumatic Brain Injury. The following is a list of others who may utilize our Infusion Services:

- Cancer Patients
- Females Pregnant or recently pregnant
