

Traumatic Brain Injury and Spinal Cord Injury Care

Giving you peace of mind...

At Dobson, we understand that recovering from a Traumatic Brain Injury (TBI) and/or Spinal Cord Injury (SCI) requires a continuum of excellent care. As part of our Licensed Nursing Services, families can expect an individualized care plan involving a compassionate team that is focused on the TBI/SCI survivor re-entering their community.

We are devoted to assisting TBI and SCI survivors, their families, and their friends adapt and adjust to this new life.

How We Can Help

The following services are generally offered to those needing TBI/SCI Care:

- Behavior Modification Education
- Enteral Therapies
- Infusion Therapies
- Licensed Nursing Care
- Medication Assistance/Management
- Non-Licensed Attendant Care
- Therapy Coordination
- Transportation

Compassionate & Experienced Staff

At Dobson, we have caregivers who have the background and education specific to dealing with the challenges of TBI's and SCI's.

Depending on the level of care needed, one or a combination of the following could be available for consistent caregiving:

- High-Tech Home Health Aid
- Nurse Wound Care Specialists
- Registered Nurse
- Licensed Practical Nurse
- PT/OT/Speech Therapists

Communicating Our TBI Care Plan

We see it as our responsibility to maintain open communication between our Care Coordination Team, the client, the family, Physicians, and Case Managers. Routine Care Conferences are utilized to make sure the client is receiving the best care possible. Furthermore, our Nurse Care Coordinators are available 24 hours a day, 7 days a week to allow the client and their caregivers the ability to report updates as they arise.

We Comfort. We Encourage. We are Caregivers.
